**Subject:** AOP-8 (PFAS AOPs) Update and Reminder

Hi everyone (and welcome to several folks “new” to this Output area),

I am well aware that all of you have been “barraged” with requests for product submissions, likely for multiple Output areas, so I will keep this short.

- (1) First, I need your input concerning products by **May 6** (that’s Monday already!).
- (2) The nature of a product is typically a *single* journal article, model, database, etc.
- (3) Products can be listed in multiple relevant Output areas.
- (4) Be sure to include products for FY19 if relevant.

I have had a few proposed products trickle in so far, but also have had some questions as to what the form/level of detail this information should take. In several instances I have received feedback that is just a little too general to meet the planning needs at this point (e.g., just a title with no description).

# Ex. 5 Deliberative Process (DP)

Thanks,

Gary
